

Convenient access at your fingertips

Intro

Bluelock is a simple way to get access to your property as well as share access on a one-time, recurring or unrestricted basis

Bluelock dispatcher

Looking for a solution where you can send access to a recipient for a limited time? Bluelock dispatcher is the perfect option for security providers that need quick access to a clients property in the event on an alarm activation. This is not limited to security providers, but will work for any industry needing access to a client's property after the owner has granted them access

NO MONTHLY OR ANUAL FEES
